

PROVINCE OF BRITISH COLUMBIA
ORDER OF THE LIEUTENANT GOVERNOR IN COUNCIL

Order in Council No. 484

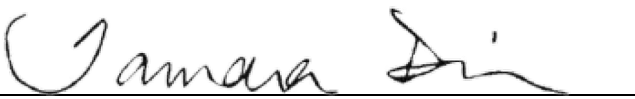

, Approved and Ordered October 27, 2025

Lieutenant Governor

Executive Council Chambers, Victoria

On the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and consent of the Executive Council, orders that

- (a) the following regulations are amended as set out in the attached Appendix 1:
 - (i) the Administrative Penalties (*Environmental Management Act*) Regulation, B.C. Reg. 133/2014;
 - (ii) the Contaminated Sites Regulation, B.C. Reg. 375/96;
 - (iii) the Municipal Wastewater Regulation, B.C. Reg. 87/2012;
 - (iv) the Open Burning Smoke Control Regulation, B.C. Reg. 152/2019;
 - (v) the Ozone Depleting Substances and Other Halocarbons Regulation, B.C. Reg. 387/99, and
- (b) effective August 1, 2026, the Administrative Penalties (*Environmental Management Act*) Regulation is amended as set out in the attached Appendix 2.

Minister of Environment and Parks

Presiding Member of the Executive Council

(This part is for administrative purposes only and is not part of the Order.)

Authority under which Order is made:

Act and section: *Environmental Management Act*, S.B.C. 2003, c. 53, ss. 62, 76, 119 and 138

Other: OIC 426/2014, OIC 1480/96, OIC 230/2012, OIC 405/2019, OIC 1594/99

R20906803

APPENDIX 1

Administrative Penalties (Environmental Management Act) Regulation

- 1** *Section 23 of the Administrative Penalties (Environmental Management Act) Regulation, B.C. Reg. 133/2014, is amended by striking out “sections 3, 4, 5, 7 or 8 (2)” and substituting “section 2”.*
- 2** *Section 33 (3) is amended by striking out “10 (3) or 27 (6)” and substituting “10 (3), 12.1 or 27 (6)”.*

Contaminated Sites Regulation

- 3** *Section 41 (4) (b) of the Contaminated Sites Regulation, B.C. Reg. 375/96, is amended by striking out “does not contain any substance” and substituting “does not contain any volatile substance”.*
- 4** *Section 42 is amended*
 - (a) by repealing subsection (2) (c) and substituting the following:*
 - (c) the source site is being or has been used for the mining of marl, earth, soil, peat, sand, gravel, dimension stone, rock or any natural substance that is used for a construction purpose on land and the soil
 - (i) was extracted in accordance with a permit under the *Mines Act*, and
 - (ii) was not affected by a specified industrial or commercial use or another source of contamination; , **and**
 - (b) by adding the following subsection:*
 - (2.1) Without limiting subsection (2), a removal of soil to a receiving site is exempt from section 55 (1.1) of the Act if all of the following circumstances apply:
 - (a) the source site is the subject of either
 - (i) a final determination under section 44 (2) (d) of the Act that the site is not a contaminated site, or
 - (ii) a certificate of compliance that the site has been remediated in accordance with the numerical standards referred to in section 53 (3) (a) (i) of the Act;
 - (b) the soil has not been contaminated since the final determination or certificate of compliance was issued;
 - (c) the soil, at any depth, and vapour at the source site does not contain any substance with a concentration greater than or equal to the numerical standard for the soil or vapour, respectively, that applies to the receiving site.
- 5** *Schedules 8 and 8.1 are repealed and the attached Schedules 8 and 8.1 are substituted.*

Municipal Wastewater Regulation

- 6 ***Section 1 of the Municipal Wastewater Regulation, B.C. Reg. 87/2012, is amended in the definition of “qualified professional” by striking out “techonologist’s” in both places and substituting “technologist’s”.***
- 7 ***Section 86 is amended in Tables 6, 7 and 8 by striking out “nitrogen total, and nitrate (as N frequency and type)” and substituting “nitrogen total, and nitrate (as N) frequency and type”.***
- 8 ***Section 87 (3) is amended by striking out “gathered data under this section” and substituting “data gathered under section 86 and this section”.***
- 9 ***Section 103 is amended in Table 12 by striking out “ammonia frequency and type (fresh-water)” and substituting “ammonia frequency and type (marine)”.***

Open Burning Smoke Control Regulation

- 10 ***Section 1 of the Open Burning Smoke Control Regulation, B.C. Reg. 152/2019, is amended by repealing the definition of “ventilation forecast” and substituting the following:***
“ventilation forecast” means the most recent applicable ventilation index forecast issued by the ministry for a geographic area; .
- 11 ***Sections 13 (2) (i) (i) (A), 19 (b) (i) (A), 20 (b) (i) (A), 21 (a) (i) (A), 22 (a) (i) (A), 23 (2) (e) (i) (A), 25 (2) (f) (i) (A) and 27 (c) (i) (A) are amended by striking out “a ventilation forecast for that area is obtained on the day, but before,” and substituting “the most recent ventilation forecast for that area is obtained before”.***
- 12 ***Sections 21 (e) (i) and 27 (f) (i) are amended by striking out “a ventilation forecast or a custom ventilation forecast” and substituting “the most recent ventilation forecast, or an updated custom forecast,”.***
- 13 ***Section 23 (2) (a) (ii) is repealed and the following substituted:***
(ii) for each site on which open burning is intended to be carried on, the location is described to a director by providing one or more of the following:
(A) the address, legal description, parcel identifier number (PID) or GPS coordinates of the site;
(B) a map that includes sufficient landmarks to ensure that the site is readily identifiable; .
- 14 ***Section 28 (5) (c) (i) (A) is amended by striking out “the ventilation forecast for that area is obtained on the day, but before,” and substituting “the most recent ventilation forecast for that area is obtained before”.***

Ozone Depleting Substances and Other Halocarbons Regulation

- 15** *Section 8 (b) of the Ozone Depleting Substances and Other Halocarbons Regulation, B.C. Reg. 387/99, is amended by striking out “maintain and make available for inspection by an officer during normal business hours at the business premises” and substituting “prepare and retain at the owner’s normal place of business”.*
- 16** *Section 9 (2) is amended by striking out “and be available for inspection on request by an officer”.*
- 17** *Section 10 (3) (b) is amended by striking out “be maintained and available for inspection on request by an officer” and substituting “be retained”.*
- 18** *Section 12 (4) (c) is amended by striking out “provide for keeping records” and substituting “provide for preparing and retaining records”.*
- 19** *The following section is added to Part 1:*

Inspection of records

- 12.1** A person who must retain a record under section 8, 9, 10 or 12 must, on request of a director or officer and in accordance with that request, make the record available for inspection
- (a) during normal business hours at the business premises, or
 - (b) electronically.

APPENDIX 2

Administrative Penalties (Environmental Management Act) Regulation

- 1** *Section 23 of the Administrative Penalties (Environmental Management Act) Regulation, B.C. Reg. 133/2014, is amended by striking out “section 2” and substituting “section 3, 4, 5, 7 or 8 (2)”.*

SOIL RELOCATION NOTIFICATION FORM

Collection Notice:

Your personal information is collected under 26(c) of the Freedom of Information and Protection of Privacy Act (FOIPPA) for the purpose of receiving soil relocation notification. Please direct any inquiries about FOIPPA to the Information Policy and Privacy Branch at 1-800-663-7867.

Fields marked with a red asterisk "*" are mandatory.

Has the source site been used for any industrial or commercial uses described in [SCHEDULE 2](#) of the Contaminated Sites Regulation? Consider both current and previous uses. *

☐ Yes

☐ No

If you answered NO to the question above, soil relocation notification under the Contaminated Sites Regulation is not required. However, soil deposition on receiving sites must adhere to other existing laws.

If you answered YES to the question above, you must complete this form. All fields marked with an asterisk (*) are mandatory.

To be completed by a qualified professional on behalf of the person responsible for relocating soil.

Section A: Source Site Information

1. SOURCE SITE OWNER (PROPERTY OWNER)

First name

For companies, enter contact person.

Last name

For companies, enter contact person.

Company, if applicable

Mailing address

City

Province

Country

Postal code

Phone number

Email

Are there additional owners?

First name *

For companies, enter contact person.

Last name *

For companies, enter contact person.

Company, if applicable

Address *

City *

Province *

Country *

Postal code *

Phone number *

Email *

Are there more than two owners? Include contact information as above.

First name, last name - address, city, province, postal code, contact phone and email

2. SOURCE SITE CONTACT

Same as the Site (Property) Owner above? *

- ☐ Yes
- ☐ No

3. SOURCE SITE LOCATION

Site identification number (Site Registry site ID), if available

Include all related numbers, separated by commas.

Coordinates for the centre of the site:

Latitude

Degrees *

Minutes *

Seconds *

Longitude

Degrees *

Minutes *

Seconds *

Source site regional district *

Land ownership *

- ☐ Legally titled, registered property
- ☐ Untitled Crown land
- ☐ Untitled municipal land
- ☐ Reserve land

Reserve name and number *

For legally titled, registered property

Site street address (if applicable) *

Or nearest street name/intersection if no address is assigned.

City *

Postal code *

PID numbers and associated legal description

PID *

__-__-__

Legal land description

Attention:

Attach land title record of source site.

Drop files to attach, or browse

For untitled Crown land

PIN numbers and associated legal description

PIN

Legal land description

And if available:

Crown land file numbers

For untitled municipal land

Legal land description

4. SOURCE SITE USE

Identify all of the industrial or commercial uses described in [SCHEDULE 2](#) which have occurred or are occurring on this site. If no Schedule 2 uses apply, indicate 'none'.

Example Schedule 2 references and descriptions

E1. appliance, equipment, or engine maintenance, repair, reconditioning, cleaning or salvage

F10. solvent manufacturing or bulk storage

Schedule 2 reference and description *

Specify all that apply.

Is the source site classified as high risk? *

☐ Yes

☐ No

5. SOURCE SITE PROJECT DETAILS

Identify the purpose of the soil excavation and relocation. *

Current type of soil storage (e.g. stockpiled, in situ) *

6. SOURCE SITE EXEMPTIONS FROM SOIL ANALYSIS REQUIREMENTS

Do exemptions from the requirement to analyze soil quality apply? *

- ☐ Yes
- ☐ No

If yes, please choose below. *

- ☐ Exemption - soil treatment facilities with an Environmental Management Act waste discharge authorization
- ☐ Exemption - transitory sites with one or more Schedule 2 uses

If the site is exempt as an authorized soil treatment facility, provide Environmental Management Act waste discharge authorization # *

If the site is eligible for exemption as a transitory site, verify that the soil was either characterized in accordance with Protocol 19 at the Schedule 2 use source site, or that it did not originate from a Schedule 2 use site *

- ☐ Verified

If the site is eligible for exemption as a transitory site, verify that the soil has not been contaminated by Schedule 2 activities at the transitory site. *

- ☐ Verified

Section B: Soil Description and Relocation Information

1. SOIL VOLUME AND QUALITY

Volume of soil to be relocated - identify soil quality

Soil volume to be relocated in cubic metres (m3)

Soil quality *

- ☐ Industrial (IL)
- ☐ Commercial (CL)
- ☐ Residential high density (RLHD)
- ☐ Residential low density (RLLD)
- ☐ Urban park (PL)
- ☐ Agricultural (AL)
- ☐ Wildlands natural (WLN)
- ☐ Wildlands reverted (WLR)

Note: Soil and vapour test results records must be maintained and provided to the ministry upon request.

2. SOIL CHARACTERIZATION METHOD

Describe soil characterization method: *

N/A, if exemptions apply

Enter N/A if source site is exempt from Protocol 19.

Attention:

Attach soil analytical data and summary table comparing analytical results to applicable CSR standards (mandatory if no Protocol 19 exemption applies)

Drop files to attach, or browse

Is the soil composed of quarried material produced through the mining and crushing of bedrock? *

- ☐ Yes
- ☐ No
- ☐ If yes, verify the soil has been evaluated and determined to have no potential for metal leaching or acid rock drainage (ML/ARD) as evaluated under Protocol 19. *

Attention:

Attach soil analytical data demonstrating that the soil has been evaluated to have no potential for metal leaching or acid rock drainage (ML/ARD) as evaluated under Protocol 19.

Drop files to attach, or browse

3. VAPOUR CHARACTERIZATION METHOD

Exemptions: Do exemptions from analyzing vapour under the Contaminated Sites Regulation or Protocol 19 apply?

- ☐ Yes *
- ☐ No

If exemptions apply, please describe: *

Describe the vapour characterization method: *

Attention:

Attach vapour analytical data and summary table comparing analytical results to applicable CSR standards

Drop files to attach, or browse

4. SOIL RELOCATION INFORMATION

Soil relocation estimated start date (month - day - year) *

Month *

Day *

Year *

Estimated completion date (month - day - year) *

Month *

Day *

Year *

Soil relocation start date must be at least 1 week and less than 2 years from the date of notification submission.

Relocation method (e.g. truck, barge, train) *

Section C: Receiving Site Information

Receiving Site

1. RECEIVING SITE OWNER

Phone number *

Email *

Are there more than two owners? Include their contact information as described above:

First name, last name - address, city, province, postal code, contact phone and email.

2. RECEIVING SITE CONTACT

Same as above? *

☐ Yes

☐ No

Receiving Site Contact Person

First Name *

Last Name *

Company, if applicable

Mailing Address *

City *

Province *

Country *

Postal code *

Phone number *

Email *

3. RECEIVING SITE LOCATION

Site identification number (environmental remediation site ID)

Include all related numbers separated by commas, if applicable

Coordinates for the centre of the site:

Latitude

Degrees *

Minutes *

Seconds *

Longitude

Degrees *

Minutes *

Seconds *

Receiving site regional district *

Attach the site location map. The map must be to an appropriate scale and clearly show the site boundaries and the exact location where the soil will be deposited. *

Drop files to attach, or browse

Land ownership *

- ☐ Legally titled, registered property
- ☐ Untitled Crown land
- ☐ Untitled municipal land
- ☐ Reserve land

Reserve name and number *

For legally titled, registered property

Site street address (if applicable)

Or nearest street name/intersection if no address is assigned.

City

Postal code

PID numbers and associated legal description

PID *

Legal land description

Attention:

Attach receiving site land title record.

Drop files to attach, or [browse](#) *

For untitled Crown land

PIN numbers and associated legal description

PIN

Legal land description

And if available:

Crown land file numbers

For untitled municipal land

Legal land description *

4. RECEIVING SITE SOIL QUALITY and LAND USE

Volume of soil to be received - identify soil quality

Soil volume to be received in cubic metres (m3) *

Soil quality *

- ☐ Industrial (IL)
- ☐ Commercial (CL)
- ☐ Residential high density (RLHD)
- ☐ Residential low density (RLLD)
- ☐ Urban park (PL)
- ☐ Agricultural (AL)
- ☐ Wildlands natural (WLN)
- ☐ Wildlands reverted (WLR)

Select all applicable land uses for the specific portion of the parcel where soil is being deposited, considering both current and future use as outlined in CSR Section 12. Where multiple land uses apply, results should be compared to the most stringent applicable standards to confirm that soil is appropriate for relocation.

Receiving site land use *

- ☐ Industrial land use (IL)
- ☐ Commercial land use (CL)
- ☐ Residential land use high density (RLHD)
- ☐ Residential land use low density (RLLD)
- ☐ Urban park land use (PL)
- ☐ Agricultural land use (AL)
- ☐ Wildlands natural land use (WLN)
- ☐ Wildlands reverted land use (WLR)

Applicable site-specific factors for CSR Schedule 3.1 *

Relocated soil use at the receiving site (e.g. fill, cover, berms) *

☐ Soil deposit is in the Agricultural Land Reserve (ALR).

Contact the Agricultural Land Commission (ALC) in regard to submitting a Notice of Intent or a Soil and Fill Use application for the soil deposit in the ALR. The ALC can be contacted at 236-468-3343 or ALC.Soil@gov.bc.ca for soil enquiries.

☐ Soil deposit is on Reserve lands.

Inform Indigenous Services Canada via email to bccontaminatedsites@sac-isc.gc.ca

SECTION 4 - RECEIVING SITE USE

Receiving site land use:

Select all applicable land uses for the specific portion of the parcel where soil is being deposited, considering both current and future use as outlined in CSR Section 12. Where multiple land uses apply, results should be compared to the most stringent applicable standards to confirm that soil is appropriate for relocation. *

- ☐ Industrial land use (IL)
- ☐ Commercial land use (CL)
- ☐ Residential land use high density (RLHD)
- ☐ Residential land use low density (RLLD)
- ☐ Urban park land use (PL)
- ☐ Agricultural land use (AL)
- ☐ Wildlands natural land use (WLN)
- ☐ Wildlands reverted land use (WLR)

High volume site confirmation:

- ☐ Receiving site is a high volume site (more than 20,000 cubic metres of commercial and/or industrial quality soil from source sites with Schedule 2 use deposited on the site in a lifetime) *

Date site became high volume

Describe how the relocated soil will be used at the receiving site (e.g. fill, cover) *

- ☐ Soil deposit is in the Agricultural Land Reserve (ALR).

Contact the Agricultural Land Commission (ALC) in regard to submitting a Notice of Intent or a Soil and Fill Use application for the soil deposit in the ALR. The ALC can be contacted at 236-468-3343 or ALC.Soil@gov.bc.ca for soil enquiries.

- ☐ Soil deposit is on Reserve Lands

Section 6 - QUALIFIED PROFESSIONAL DECLARATION

I, the undersigned, confirm:

- I am a qualified professional and I have demonstrable experience in conducting soil management of the type reviewed above.
- I have no financial or other interest in the outcome of this project other than the standard fee I will receive for my professional services.
- The above information and all attached information is true, complete and accurate, based on my current knowledge as of the date completed.
- The site meets all requirements for a high volume receiving site set out in the Contaminated Sites Regulation including the requirement for an approved professional to review and approve the soil management plan.
