

PROVINCE OF BRITISH COLUMBIA

ORDER OF THE LIEUTENANT GOVERNOR IN COUNCIL

Order in Council No. 292

, Approved and Ordered June 03, 2022

Lieutenant Governor
Administrator

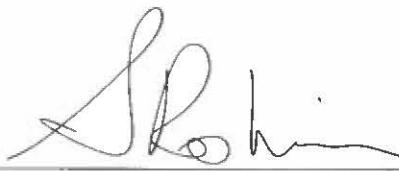

Executive Council Chambers, Victoria

On the recommendation of the undersigned, the ~~Lieutenant Governor~~^{Administrator}, by and with the advice and consent of the Executive Council, orders that, effective March 1, 2023,

- (a) sections 1 to 9 of the *Environmental Management Amendment Act, 2020*, S.B.C. 2020, c. 3, are brought into force;
- (b) the Waste Discharge Regulation, B.C. Reg. 320/2004, is amended as set out in the attached Appendix 1, and
- (c) the Contaminated Sites Regulation, B.C. Reg. 375/96, is amended as set out in the following sections of the attached Appendix 2:
 - (i) sections 2 and 5;
 - (ii) section 7, as it enacts sections 40 to 42, 43 (1) and (2), 44, 45 and 46.1 (7);
 - (iii) sections 10, 11 and 13.

Minister of Environment and Climate Change Strategy
and Minister Responsible for Translink

Presiding Member of the Executive Council

(This part is for administrative purposes only and is not part of the Order.)

Authority under which Order is made:

Act and section: *Environmental Management Amendment Act, 2020*, S.B.C. 2020, c. 3, s. 10;
Environmental Management Act, S.B.C. 2003, c. 53, ss. 62, 138 and 139

Other: OIC 1480/96, 723/2004

R20550317

APPENDIX 1

- 1 Schedule 1 of the Waste Discharge Regulation, B.C. Reg. 320/2004, is amended by repealing the definition of “contaminated site contaminant management” in section 2 and substituting the following:**

“**contaminated site contaminant management**” means an activity, at or away from a contaminated site, for the treatment, consolidation, removal, recycling, destruction or disposal of contaminants or contaminated substances from the site; .

APPENDIX 2

- 1 Part 1 of the Contaminated Sites Regulation, B.C. Reg. 375/96, is amended**

- (a) in section 1 by repealing the definition of “background concentration” and substituting the following:**

“**background concentration**” means the naturally occurring concentration of a substance in an environmental medium at a geographic area, as determined in accordance with the director’s protocols; ,

- (b) in section 1 in the definitions of “high density residential use” and “low density residential use” by adding “, subject to section 1.2,” after “means”, and**

- (c) by adding the following section:**

Interpretation — high and low density residential land uses

- 1.2** For the purposes of the definitions of “high density land use” and “low density land use” in section 1, a land use that would otherwise be a high density residential land use is to be considered to be a low density residential use if the land is also used

- (a) to grow plants for human consumption, or
- (b) as a playground, sports field, picnic area or other use that involves frequent contact with the soil by children.

- 2 Section 4.2 is amended**

- (a) by adding the following subsection:**

- (1.1) A person is exempt from the requirement to provide a site disclosure statement to a municipality under section 40 (1) (b) (ii) of the Act if the land is the site of a waste management facility that is
 - (a) operated under a permit or operational certificate, and
 - (b) actively accepting or processing waste., **and**

- (b) in subsection (2) by adding the following paragraphs:**

- (c.1) installing or replacing posts for decks;
- (c.2) installing footings, pads or other concrete structures at or near the surface of the ground; .

3 *Section 6.3 is amended*

- (a) *in subsection (2) (a) by striking out* “subject to” **and substituting** “operated under”, **and**
- (b) *in subsection (3) by striking out* “must be undertaken” **and substituting** “must be completed”.

4 *Section 7.1 (1) (f) is repealed.*

5 *Sections 8 (1) (a) and 9 (20) (f) are repealed.*

6 *Section 11 is amended*

- (a) *in subsection (1) by adding the following paragraph:*

- (b.1) the concentration of any of the following substances, as defined in Schedule 3.2, in surface water or groundwater at the site is greater than the applicable generic numerical water standard:
 - (i) EPHw10-19;
 - (ii) nonaqueous phase liquids;
 - (iii) VHw6-10; , **and**

- (b) *in subsection (4) (b) by striking out* “a commercial or industrial activity listed in Schedule 2” **and substituting** “a specified industrial or commercial use”.

7 *Part 8 is repealed and the following substituted:*

PART 8 – REMOVAL OF SOIL

Division 1 – Interpretation

Definitions

40 In this Part:

- “**federal land**” means land under the administration and control of Her Majesty the Queen in right of Canada;
- “**highway**” has the same meaning as in the *Transportation Act*;
- “**low-impact land use**” means a land use described in any of paragraphs (a) to (d) of section 12 (3) [*wildlands, agricultural, urban park or residential*];
- “**pipeline**” has the same meaning as in the *Oil and Gas Activities Act*;
- “**preload**” means soil that, for geotechnical purposes, is temporarily placed on the surface of a site to compress the underlying soil;
- “**qualified professional**”, in relation to a duty or function under this Part, means an individual who
 - (a) is registered in British Columbia with a professional organization, acts under that organization’s code of ethics and is subject to disciplinary action by that organization, and

(b) through suitable education, experience, accreditation and knowledge may reasonably be relied on to provide advice within the individual's area of expertise, which area of expertise is applicable to the duty or function;

"receiving site" means a site at which soil is deposited;

"source site" means a site from which soil is removed;

"transit system" has the same meaning as in the *Transportation Act*;

"winter-maintenance sand" means sand that is applied to roadways or other surfaces for the purpose of managing icy conditions.

Definition of "waste" in the Act

- 41 (1) For the purposes of the definition of "waste" in section 1 (1) of the Act, a soil is prescribed as waste in relation to a receiving site if
 - (a) the concentration of any substance in the soil is greater than
 - (i) the generic numerical soil standard applicable to the receiving site, or
 - (ii) the lowest value of the matrix numerical soil standards applicable to the receiving site, or
 - (b) the concentration of any substance in vapour emissions from the soil is greater than the generic numerical vapour standard applicable to the receiving site.
- (2) Subsection (1) (a) does not apply in relation to a substance if the concentration of the substance in soil is not greater than
 - (a) the applicable site-specific numerical standard, or
 - (b) the background concentration of that substance in soil at the receiving site.
- (3) Subsection (1) (b) does not apply in relation to a substance if
 - (a) the concentration of the substance in vapour is not greater than
 - (i) the applicable site-specific numerical standard, or
 - (ii) the background concentration of that substance in vapour at the receiving site, or
 - (b) the soil is exempt under subsection (4) from vapour analysis.
- (4) For the purposes of subsection (3) (b), soil is exempt from vapour analysis if
 - (a) the soil does not contain any volatile chlorinated substance set out in Schedule 3.1, and
 - (b) the soil does not contain any substance with a concentration greater than
 - (i) the generic numerical soil standard for a low density residential land use, or
 - (ii) the lowest value of the matrix numerical soil standards for a low density residential land use.

Division 2 – Removal of Soil

Removal of soil

- 42** (1) Section 55 (1.1) [*removal of soil – notice*] of the Act applies to the removal of soil from a source site to a receiving site unless the soil is exempt under
- (a) section 55 (1.4) [*removal of small amounts of soil*] of the Act,
 - (b) section 55 (5) [*removal of soil that is waste*] of the Act, or
 - (c) subsection (2) of this section.
- (2) A removal of soil to a receiving site is exempt from section 55 (1.1) of the Act in any of the following circumstances:
- (a) the receiving site is outside of British Columbia;
 - (b) the receiving site is on federal land, other than a reserve within the meaning of the *Indian Act* (Canada);
 - (c) the source site has not been used other than for a low-impact land use or mining of marl, earth, soil, peat, sand, gravel, dimension stone, rock or any natural substance that is used for a construction purpose on land and the soil was
 - (i) extracted in accordance with a permit under the *Mines Act*, and
 - (ii) transported directly to the receiving site;
 - (d) the soil is preload that was originally extracted from a site used for a low-impact land use, whether or not the source site is used for a low-impact land use;
 - (e) the soil is winter-maintenance sand.
- (3) For the purposes of section 55 (1.4) of the Act, the following amount of soil is prescribed as exempt from section 55 (1.1) of the Act:
- (a) in the case of soil removed from a source site classified under a director's protocol as low, moderate, medium or intermediate risk, the prescribed amount is 30 cubic metres calculated in accordance with subsection (4) of this section;
 - (b) in the case of soil removed from a source site classified under a director's protocol as high risk, no amount is prescribed.
- (4) For the purposes of subsection (3) (a), the amount of soil removed is to be calculated by adding the amounts removed over the course of the same project in any period of 2 years.

Notice of removal of soil

- 43** (1) A notice under section 55 (1.1) [*removal of soil – notice*] of the Act must be
- (a) in the form set out in Schedule 8, and
 - (b) provided to the minister by a qualified professional, through a website maintained by or on behalf of the minister, at least one week and no more than 2 years before the removal of the soil to which the notice relates.
- (2) For the purposes of section 55 (1.2) (a) (iv) of the Act, a summary of an analysis of the quality of soil must identify

- (a) which substances in the soil or in vapours emitted from the soil were analyzed, and
 - (b) the concentrations of those substances.
- (3) For the purposes of section 55 (1.2) (a) (v) of the Act, a notice under section 55 (1.1) must include the information specified in the form set out in Schedule 8.

Division 3 – High Volume Sites

Definitions

44 In this Division:

- “**high volume site**” means a site in relation to which section 55.1 (2) [*high volume soil receiving sites*] of the Act applies;
- “**managed soil**”, in relation to a high volume site, means relocated industrial or commercial site soil that is
 - (a) relocated to the site, and
 - (b) not exempt under section 45 (3).

High volume sites

- 45**
- (1) For the purposes of section 55.1 (2) of the Act, the prescribed amount is 20 000 cubic metres.
 - (2) Section 55.1 (2) of the Act does not apply in relation to a waste management facility.
 - (3) Subject to subsection (4), section 55.1 (2) of the Act does not apply in relation to soil that is relocated to a site in any of the following circumstances:
 - (a) the soil is relocated to the site before November 1, 2022,
 - (b) the soil does not meet any of the following criteria:
 - (i) the concentration of any substance in the soil is greater than
 - (A) the generic numerical soil standard applicable to a site that is used for a low-impact land use, or
 - (B) the lowest value of the matrix numerical soil standards applicable to a site that is used for a low-impact land use;
 - (ii) the concentration of any substance in vapour emissions from the soil is greater than the generic numerical vapour standard applicable to a site that is used for a low-impact land use;
 - (c) subject to subsection (4), the soil is relocated to a site of any of the following facilities in the course of constructing or maintaining the facility:
 - (i) a highway;
 - (ii) a transit system;
 - (iii) a pipeline;
 - (iv) a sewage collection system;
 - (v) a drainage collection system that is below ground;
 - (vi) a water distribution system;

- (vii) an electricity transmission or distribution system;
 - (viii) a telecommunications line or tower;
 - (ix) a right of way required for infrastructure described in any of subparagraphs (i) to (viii);
 - (x) dikes, green shores or other structures constructed to prevent flooding or erosion.
- (4) The exemption under subsection (3) (c) does not apply in relation to soil that is relocated to a site described in that subsection if
- (a) the site is within 10 metres of
 - (i) a watercourse or body of water, whether or not usually containing water, or
 - (ii) any of the following that is connected by surface flow to a watercourse or body of water referred to in subparagraph (i):
 - (A) a ditch, whether or not usually containing water;
 - (B) a spring, whether or not usually containing water;
 - (C) a wetland, and
 - (b) the soil contains an organic substance with a concentration greater than
 - (i) the generic numerical soil standard applicable to a site that is used for a low-impact land use, or
 - (ii) the lowest value of the matrix numerical soil standards applicable to a site that is used for a low-impact land use.

Registration of high volume site

- 46** (1) For the purposes of section 55.1 (2) (a) of the Act, the owner of a high volume site must register the site with the minister.
- (2) An application for registration under subsection (1) must be
- (a) in the form set out in Schedule 8.1, and
 - (b) submitted by a qualified professional through a website maintained by or on behalf of the minister.

Soil management plan

- 46.1** (1) For the purposes of section 55.1 (2) (a) of the Act, the owner of a high volume site must
- (a) have a soil management plan for the site, and
 - (b) manage the site in accordance with that soil management plan until the site is closed.
- (2) A soil management plan for a high volume site must be
- (a) developed by a qualified professional, and
 - (b) approved by an approved professional other than the qualified professional who developed the plan.
- (3) A soil management plan for a high volume site must

- (a) ensure the managed soil at the site is contained so that substances in that soil do not migrate from the site in concentrations sufficient to cause contamination at another site, and
- (b) without limiting paragraph (a),
 - (i) set out procedures for
 - (A) the detailed tracking of the source sites of the managed soil at the site and the locations at the site where the managed soil from each source site is deposited, and
 - (B) seasonal groundwater monitoring, and
 - (ii) include a plan for closure of the high volume site.
- (4) A soil management plan under subsection (1) for a high volume site must be implemented under the supervision of a qualified professional.
- (5) A closure plan under subsection (3) (b) (ii) must provide that the site must not be closed until
 - (a) the operator has ceased accepting relocated industrial or commercial site soil for deposit at the site, other than soil exempt under section 45 (3), and
 - (b) an approved professional has given an opinion that
 - (i) the substances in the managed soil at the site are stable, in accordance with the director's protocols, and
 - (ii) seasonal groundwater monitoring is no longer required for the purposes described in subsection (3) (a) of this section.
- (6) An opinion referred to in subsection (5) (b) must be in writing and must set out the reasons on which the opinion is based.
- (7) The owner of a high volume site must retain a copy of the soil management plan for the site for at least 10 years after the site is closed.

8 Schedule 1 is repealed and the attached Schedule 1 is substituted.

9 Schedule 2 is repealed.

10 The attached Schedule 2 is added.

11 Schedule 3 is amended

- (a) **in the heading to Table 1 by striking out “Site Profiles” and substituting “Site Disclosure Statements”,**
- (b) **in item 1 of Table 1**
 - (i) **by striking out “Site Profiles” in the heading and substituting “Site Disclosure Statements”, and**
 - (ii) **by striking out “site profile” and substituting “site disclosure statement”,**
- (c) **in Table 2 by repealing item 3 (a), and**
- (d) **in Table 3**

- (i) by striking out* “contaminated soil relocation agreement,” *in item 1, and*
- (ii) by striking out* “site profile” *and substituting* “site disclosure statement” *in item 2.*

12 *Schedules 3.1 to 3.4 are repealed and the attached Schedules 3.1 to 3.4 are substituted.*

13 *Schedule 8 is repealed and the attached Schedule 8 is substituted.*

14 *The attached Schedule 8.1 is added.*

SCHEDULE 1

Site Disclosure Statement

All fields marked with a red asterisk (*) are mandatory.

Has the site been used for any industrial or commercial uses described in [SCHEDULE 2](#) of the Contaminated Sites Regulation? *

- Yes
 No

If you answered NO to the question above, the form is not submitted to the ministry. As per Section 3.5 of the Contaminated Sites Regulation, a municipality or approving officer may still request a person to complete a site disclosure statement for their records.

If you answered YES to the question above, you must complete this form if no exemptions apply.

Exemptions

Do any of the exemptions from submitting a site disclosure statement apply? (see the [CONTAMINATED SITES REGULATION](#), Part 2, Division 3) *

- Yes
 No

If YES, indicate which exemption applies. As per Section 3.5 of the Contaminated Sites Regulation, a municipality or approving officer may still request a person to complete a site disclosure statement for their records. *

Section II - SITE INFORMATION

Coordinates for the centre of the site:

Latitude

Degrees *

Minutes *

Seconds *

Longitude

Degrees *

Minutes *

Seconds *

Attention:

A separate map with appropriate scale showing the location and boundaries of the site must be included.

I will include a map with my submission *

Land ownership *

- Legally titled, registered property
- Untitled Crown land

For legally titled, registered property

Site address or nearest street name/intersection if no address is assigned *

City *

Postal code *

PID *

Land description *

For untitled Crown land

PIN *

Land description *

And if available: Crown land file numbers

Section III - SPECIFIED INDUSTRIAL OR COMMERCIAL USES

Indicate all the industrial or commercial uses described in the Contaminated Sites Regulation [SCHEDULE 2](#) which have occurred or are occurring on this site.

Example Schedule 2 references and descriptions

E1. appliance, equipment, or engine maintenance, repair, reconditioning, cleaning or salvage

F10. solvent manufacturing, bulk storage, shipping and handling

Schedule 2 reference and description *

Select all that apply, choose "none" if no Schedule 2 uses apply.

Section IV - ADDITIONAL INFORMATION

1. Provide a brief summary of the planned activity and proposed land use at the site. *

If not applicable, type N/A

2. Indicate the information used to complete this site disclosure statement including a list of record searches completed. *

3. List any past or present government orders, permits, approvals, certificates or notifications pertaining to the environmental condition of the site: *

If not applicable, type N/A

Section V - DECLARATIONS

Where a municipal approval is not required, you must indicate the reason for submission directly to the registrar:

- | | | |
|--|--|---|
| <input type="checkbox"/> Under order | <input type="checkbox"/> Foreclosure | <input type="checkbox"/> CCAA proceedings |
| <input type="checkbox"/> BIA proceedings | <input type="checkbox"/> Decommissioning | <input type="checkbox"/> Ceasing operations |

By signing below, I confirm that the information in this form is complete and accurate to the best of my knowledge:

SCHEDULE 2
SPECIFIED INDUSTRIAL OR COMMERCIAL USES

A	<p>Chemical industries and activities</p> <ul style="list-style-type: none"> 1. adhesives manufacturing or bulk storage 2. chemical manufacturing or bulk storage 3. explosives or ammunition manufacturing or bulk storage 4. fire retardant manufacturing, bulk storage or shipping 5. fertilizer manufacturing, bulk storage or shipping 6. ink or dye manufacturing or bulk storage 7. leather or hides tanning 8. paint, lacquer or varnish manufacturing, formulation, recycling or bulk storage 9. pharmaceutical products, or controlled substances as defined in the <i>Controlled Drugs and Substances Act</i> (Canada), manufacturing or operations 10. plastic products (foam or expanded plastic) manufacturing or repurposing 11. textile dyeing 12. pesticide manufacturing, formulation, bulk storage or shipping 13. resin or plastic monomer manufacturing, formulation or bulk storage
B	<p>Electrical equipment and activities</p> <ul style="list-style-type: none"> 1. battery manufacturing, recycling or bulk storage 2. facilities using equipment that contains PCBs greater than or equal to 50 ppm 3. electrical equipment manufacturing, refurbishing or bulk storage 4. electrical transmission or distribution substations 5. electronic equipment manufacturing 6. transformer oil manufacturing, processing or bulk storage 7. electrical power generating operations fueled by coal or petroleum hydrocarbons that supply electricity to a community or commercial or industrial operation, excluding emergency generators.

C	Metal smelting, processing or finishing industries and activities 1. foundries 2. galvanizing 3. metal plating or finishing 4. metal salvage operations 5. metal smelting or refining 6. welding or machine shops (repair or fabrication)
D	Mining, milling or related industries and activities at or near land surface 1. asbestos mining, milling, bulk storage or shipping 2. coal coke manufacture, bulk storage or shipping 3. coal or lignite mining, milling, bulk storage or shipping 4. milling reagent manufacture, bulk storage or shipping 5. metal concentrate bulk storage or shipping 6. metal ore mining or milling
E	Miscellaneous industries, operations or activities 1. appliance, equipment or engine maintenance, repair, reconditioning, cleaning or salvage 2. ash deposit from boilers, incinerators or other thermal facilities 3. asphalt and asphalt tar manufacture, storage and distribution, including stationary asphalt batch plants 4. coal gasification (manufactured gas production) 5. medical, chemical, radiological or biological laboratories 6. outdoor firearm shooting ranges 7. road salt or brine storage 8. measuring instruments (containing mercury) manufacture, repair or bulk storage 9. dry cleaning facilities or operations and dry cleaning chemical storage, excluding locations at which clothing is deposited but no dry cleaning process occurs 10. Repealed. 11. fire training facilities at which fire retardants are used 12. Repealed.

F	<p>Petroleum (including blends and biodiesels) and natural gas drilling, production, processing, retailing, distribution and commercial storage</p> <ol style="list-style-type: none"> 1. petroleum or natural gas drilling 2. petroleum or natural gas production facilities 3. natural gas processing 4. petroleum coke manufacture, bulk storage or shipping 5. petroleum product, other than compressed gas, dispensing facilities, including service stations and card locks 6. petroleum, natural gas or sulfur pipeline rights of way excluding rights of way for pipelines used to distribute natural gas to consumers in a community 7. petroleum product (other than compressed gas), or produced water storage in non-mobile above ground or underground tanks, except above ground tanks associated with emergency generators or with secondary containment 8. petroleum product, other than compressed gas, bulk storage or distribution 9. petroleum refining 10. solvent manufacturing or bulk storage 11. sulfur handling, processing, or bulk storage and distribution
G	<p>Transportation industries, operations and related activities</p> <ol style="list-style-type: none"> 1. aircraft maintenance, cleaning or salvage 2. automotive, truck, bus, subway or other motor vehicle maintenance, repair, salvage or wrecking 3. dry docks, marinas, shipbuilding or boat repair and maintenance, including paint removal from hulls 4. marine equipment salvage 5. rail car or locomotive maintenance, cleaning, salvage or related uses, including railyards
H	<p>Waste disposal and recycling operations and activities</p> <ol style="list-style-type: none"> 1. antifreeze bulk storage, recycling or shipping 2. barrel, drum or tank reconditioning or salvage 3. biomedical waste disposal 4. bulk manure stockpiling and high rate land application or disposal (nonfarm applications only) 5. landfilling of construction demolition material, including without limitation asphalt and concrete 6. contaminated soil or sediment storage, treatment, deposit or disposal 7. dry cleaning waste disposal 8. electrical equipment recycling 9. industrial waste lagoons or impoundments 10. industrial waste storage, recycling or landfilling

	<ul style="list-style-type: none"> 11. industrial woodwaste (log yard waste, hogfuel) disposal 12. mine tailings waste disposal 13. municipal waste storage, recycling, composting or landfilling 14. organic or petroleum material landspreading (landfarming) 15. sandblasting operations or sandblasting waste disposal 16. septic tank pumpage storage or disposal 17. sewage lagoons or impoundments 18. hazardous waste storage, treatment or disposal 19. sludge drying or composting 20. municipal or provincial road or yard snow removal dumping 21. waste oil reprocessing, recycling or bulk storage 22. wire reclaiming operations
I	<p>Wood, pulp and paper products and related industries and activities</p> <ul style="list-style-type: none"> 1. particle or wafer board manufacturing 2. pulp mill operations 3. pulp and paper manufacturing 4. treated wood storage at the site of treatment 5. veneer or plywood manufacturing 6. wood treatment (antisapstain or preservation) 7. wood treatment chemical manufacturing or bulk storage

Notes

- 1 The pH is the pH of the soil at a site
- 2 Standard varies with receiving water hardness (H) H = 150 to < 210 mg/L as CaCO₃ is assumed If the receiving water hardness is outside of this specified range, modify the standard in accordance with a director's protocol

Notes
 1 Standard varies with Kd (partition coefficient) for chloride ion in the soil of a site. Standard is appropriate to a chloride:soil Kd range of 0 to 0.1 mL/g. If the Kd for chloride is outside of this specified range, modify the standard in accordance with a director's protocol.

Notes

- 1 The pH is the pH of the soil at a site
- 2 Water standard varies with the temperature of the receiving surface water. A surface water temperature of 20°C or below was assumed. If the receiving water temperature is outside of this range, modify the standard in accordance with a director's protocol

Notes

- ¹ The pH is the pH of the soil at a site
² Standard varies with receiving water hardness (H) H = 200 to < 300 mg/L as CaCO₃ is assumed. If the receiving water hardness is outside of this specified range, identify the applicable standard using a director's protocol

Notes

1 All values in µg/g unless otherwise stated
 2 HEPHs – Heavy Extractable Petroleum Hydrocarbons in soil is the sum of extractable petroleum hydrocarbons with a carbon range from 19 to 32 obtained by the approved methods minus the sum of benz(a)anthracene, benzo(b)fluoranthene, benzo(k)fluoranthene, dibenz(a,h)anthracene, indeno(1,2,3-c,d)pyrene, and pyrene, where approved methods are specified by a director's protocol

3 NA – Not Applicable No CAS number exists for the substance
 4 LEPHs – Light Extractable Petroleum Hydrocarbons in soil is the sum of extractable petroleum hydrocarbons with a carbon range from 10 to 19 obtained by the approved methods minus the sum of naphthalene and phenanthrene, where approved methods are specified by a director's protocol

5 The presence of nonaqueous phase liquids as determined in accordance with a director's protocol

6 The presence of odorous substances as determined in accordance with a director's protocol
 7 VPHs – Volatile Petroleum Hydrocarbons in soil includes the sum of volatile hydrocarbons with a carbon range from 6 to 10 obtained by approved methods minus the sum of benzene, ethylbenzene, styrene, toluene and xylenes, where approved methods are specified by a director's protocol

Notes

1 All values in µg/g unless otherwise stated

2 NS – No Standard

3 NA – Not Applicable No CAS number exists for the substance

4 HEPHs – Heavy Extractable Petroleum Hydrocarbons in soil is the sum of extractable petroleum hydrocarbons with a carbon range from 19 to 32 obtained by the approved methods minus the sum of benz(a)anthracene, benzo(b)fluoranthene, benzo(k)fluoranthene, dibenz(a,h)anthracene, indeno(1,2,3-c,d)pyrene, and pyrene, where approved methods are specified by a director's protocol

5 LEPHs – Light Extractable Petroleum Hydrocarbons in soil is the sum of extractable petroleum hydrocarbons with a carbon range from 10 to 19 obtained by the approved methods minus the sum of naphthalene and phenanthrene, where approved methods are specified by a director's protocol

6 The presence of nonaqueous phase liquids as determined in accordance with a director's protocol

7 The presence of odorous substances as determined in accordance with a director's protocol

8 VPHs – Volatile Petroleum Hydrocarbons in soil includes the sum of volatile hydrocarbons with a carbon range from 6 to 10 obtained by approved methods minus the sum of benzene, ethylbenzene, styrene, toluene and xylenes, where approved methods are specified by a director's protocol

Notes

- 1 All values are in µg/L unless otherwise stated
- 2 (a) Aquatic life standards assume minimum 1:10 dilution is available prior to discharge to the aquatic receiving environment Aquatic life standards are to protect freshwater and marine life unless otherwise indicated
- 2 (b) Standards for all organic substances are for total substance concentrations Any water sample to be analyzed for organic substances should not be filtered
- 2 (c) Standards for surface water samples to be analyzed for heavy metals, metalloids and inorganic ions are total substance concentrations
- 2 (d) Standards for groundwater samples for heavy metals, metalloids and inorganic ions are for dissolved substance concentrations
- 2 (e) Standards for irrigation water apply to irrigation of all soil types, unless otherwise indicated
- 3 Drinking water standards are for unfiltered samples obtained at the point of consumption Heavy metals, metalloids and inorganic ions are expressed as total substance concentrations unless otherwise indicated
- 4 Standard to protect freshwater aquatic life Water is to be considered freshwater if its psu is ≤ 15
- 5 Standard to protect marine and estuarine aquatic life Water is to be considered marine or estuarine if its psu is > 15
- 6 Standard to protect crops other than legumes
- 7 Standard to protect legumes
- 8 Standard is applicable to the sum of the concentrations of aldrin and dieldrin
- 9 Standard varies with pH and temperature 10 °C or less is assumed If the water temperature is greater, modify the standard in accordance with a director's protocol
- 10 Standard varies with pH, temperature and salinity 10 °C or less and 10 practical salinity units (psu) are assumed For other conditions, modify the standard in accordance with a director's protocol
- 11 Standard is expressed in million fibres > 10 µm/L (m f/L)
- 12 Standard varies depending on crop as follows

Crop	Standards (µg/L)
blackberry	500
barley, cherry, cowpea, garlic, grape, lens/alen artichoke, kidney bean, lima bean, mung bean, onion, peach, plum, sesame, strawberry, sunflower, sweet potato, wheat	1 000
carrot, cucumber, pea, potato, radish, red pepper	2 000
artichoke, bluegrass (Kentucky), cabbage, celery, clover, corn, lettuce, muskmelon, mustard, oat, squash, tobacco, turnip	4 000
alfalfa, asparagus, parsley, purple vetch, red beet, sorghum, sugar beet, tomato	6 000

- 13 Standard to protect crops other than cereals, tame hays and pasture
- 14 Standard to protect cereals, tame hays and pasture crops
- 15 Standard is specific for total trihalomethanes. Sum of the concentrations of bromodichloromethane (BDCM), dibromochloromethane (DBCM), bromoform (tribromomethane), and chloroform (trichloromethane) must not exceed the standard specified
- 16 H mean water hardness in mg/L CaCO₃
- 17 Standard to protect all types of crops
- 18 Standard varies with pH, temperature and substance isomer, as specified in a director's protocol
- 19 Standard is applicable to the sum of concentrations of all chlorophenol isomers
- 20 Standards are for the sum of DDT (2,4' + 4,4' isomers), DDD (2,4' + 4,4' isomers), and DDE (2,4' + 4,4' isomers)
- 21 NA – not applicable No CAS number exists for the substance
- 22 Standard is applicable to the sum of concentrations of all dichlorophenol isomers
- 23 Standards apply to a site used for an industrial or commercial purpose or activity set out in Schedule 2 as item F2, F3, F7, or F10
- 24 Standard to protect cereal crops and hay
- 25 Standard to protect lactating dairy animals
- 26 Standard is applicable at all sites, irrespective of water use See section 11 (1) (b 1) of the regulation EPHw10-19 – Extractable Petroleum Hydrocarbons (nC10-nC19) in water includes all the extractable petroleum hydrocarbons with a carbon range from 10 to 19 obtained from the approved methods, where approved methods are specified by a director's protocol
- 27 Standards apply to a site used for an industrial or commercial purpose or activity set out in Schedule 2 as item H16 or H17
- 28 Standard varies with type of livestock
- 29
- | Livestock Type | Standard (µg/L) |
|---|-----------------|
| Dairy cows, breeding stock, long-lived animals | 1000 |
| Livestock provided fluoride by bone meal or mineral additives | 1000 |
| All other types of livestock | 2000 |
- 30 Standard is applicable to the sum of the concentrations of heptachlor and heptachlor epoxide
- 31 Standard is applicable to the sum of the concentrations of all hexachlorocyclohexane isomers
- 32 Standards apply to a site used for an industrial or commercial purpose or activity set out in Schedule 2 as
- (a) item A6, A7, A8, or A11,
 - (b) item C1, C2, C3, C4, or C6,
 - (c) item D2, D3, D5 or D6,
 - (d) item E4, or
 - (e) item H12
- 33 Standards apply to a site used for an industrial or commercial purpose or activity set out in Schedule 2 as item H9 or H18, but only if the site was used for that purpose or activity in conjunction with, or as a result of, the site also being used for at least one of the purposes or activities set out in Note 43
- 34 LEPHw – Light Extractable Petroleum Hydrocarbons in water, is the sum of extractable petroleum hydrocarbons with a carbon range from 10 to 19 obtained by the approved methods minus the sum of naphthalene and phenanthrene, where approved methods are specified by a director's protocol
- 35 Standards apply to a site used for an industrial or commercial purpose or activity set out in Schedule 2 as
- (a) item B1,
 - (b) item C1, C3 or C4,
 - (c) item D2, D3, D5 or D6,
 - (d) item E4, or
 - (e) item H12
- 36 Standards apply to a site used for an industrial or commercial purpose or activity set out in Schedule 2 as item H9 or H18 but only if the site was used for that purpose or activity in conjunction with, or as a result of, the site also being used for at least one of the purposes or activities set out in Note 35

- 37 Standard varies with crop, soil drainage and Mo Cu ratio
- | Crop Type | Soil Drainage | Cu Mo Ratio in Irrigation Water | Molybdenum irrigation watering standard ($\mu\text{g/L}$) |
|--|----------------|---------------------------------|---|
| Forage | Poorly drained | <2 : 1 | 10 |
| Forage | Poorly drained | >2 : 1 | 20 |
| Forage | Well drained | N/A | 20 |
| Non-Forage | N/A | N/A | 30 |
| Crop type, soil drainage, and/or Cu Mo ratio in irrigation water, is unknown | | | 10 |
- 38 Standard is specific for total haloacetic acids. Sum of the concentrations of monochloroacetic acid (MCA), dichloroacetic acid (DCA), trichloroacetic acid (TCA), monobromoacetic acid (MBA) and dibromoacetic acid (DBA) must not exceed the standard specified
- 39 The presence of nonaqueous phase liquids is determined in accordance with a director's protocol
- 40 Nonylphenol includes related nonylphenolic and octylphenolic compounds, including ethoxylates
- 41 Standards apply to a site used for an industrial or commercial purpose or activity set out in Schedule 2 as
- (a) item A6, A8, A10 or A12,
- (b) item H9, H16 or H17, or
- (c) item I2 or I3
- 42 Standards apply to a site used for an industrial or commercial purpose or activity set out in Schedule 2 as
- (a) item A4,
- (b) item C3,
- (c) item E10, or
- (d) item G1
- 43 Standard is for salinity measurements by electrical conductivity or density methods using the Practical Salinity Scale, which closely equates to concentration units of parts per thousand (g/kg or g/L). Salinity measurements using the Practical Salinity Scale may be denoted as practical salinity units (psu)
- 44 Standard for continuous application on crops
- 45 Standard for intermittent application on crops
- 46 Standard is applicable to the sum of concentrations of all tetrachlorophenol isomers
- 47 Standard is applicable to the sum of concentrations of all trichlorophenol isomers
- 48 VHw6-10 – Volatile Hydrocarbons (nC₆-nC₁₀) in water are hydrocarbons that elute between n-hexane and n-decane obtained by approved methods, where approved methods are specified by a director's protocol
- 49 VPHw – Volatile Petroleum Hydrocarbons in water includes the sum of volatile hydrocarbons with a carbon range from 6 to 10 (VHw6-10) obtained by approved methods minus the sum of benzene, ethylbenzene, styrene, toluene and xylenes, where approved methods are specified by a director's protocol

vinyl acetate	108-05-4	200	600	2 000	1 500
vinyl bromide	593-60-2	1	1	3	2.5
vinyl chloride	75-01-4	1	3.5	10	9
VPH ³	NA ⁴	1 000	3 000	11 500	8 000
xylenes, total ⁵	1330-20-7	100	300	900	800

Notes

1 All values in µg/m³ unless otherwise stated.

2 Vapour standards applied to soil vapour may be adjusted for depth dependent attenuation as specified in a director's protocol.

3 VPH – Volatile Petroleum Hydrocarbons in vapour includes the sum of those compounds with a carbon range from 6 to 13 obtained by approved methods minus the sum of benzene, ethylbenzene, n-decane, n-hexane, styrene, toluene and xylenes, where approved methods are specified by a director's protocol.

4 NA – not applicable. No CAS number exists for the substance.

5 Standard for the substance applies to the sum of vapour concentrations of ortho, meta and para isomers.

SCHEDULE 3.4

GENERIC NUMERICAL SEDIMENT STANDARDS¹

COLUMN 1 Substance	COLUMN 2 Chemical Abstract Service Number (CAS)	COLUMN 3 Freshwater Sediment ² Standard for Sensitive Use	COLUMN 4 Freshwater Sediment ² Standard for Typical Use	COLUMN 5 Marine and Estuarine Sediment ³ Standard for Sensitive Use	COLUMN 6 Marine and Estuarine Sediment ³ Standard for Typical Use
polychlorinated biphenyls, total ⁶ [PCBs]	1336-36-3	0.17	0.33	0.12	0.23
polychlorinated dioxins and furans, total ⁷ [PCDDs and PCDFs, total]	1746-01-6	0.00013	0.00026	0.00013	0.00026
polycyclic aromatic hydrocarbons, total ⁴ [PAHs]	NA ⁵	10.0	20.0	10.0	20.0
pyrene	129-00-0	0.54	1.1	0.87	1.7
zinc	7440-66-6	200.0	380.0	170.0	330.0

Notes

1 All values in µg/g dry weight (dwt) unless otherwise stated.

2 Standards are specific to the protection of freshwater life.

3 Standards are specific to the protection of marine and estuarine aquatic life.

4 PAHs, total in sediment includes:

acenaphthene,
acenaphthylene,
anthracene,
benz(a)anthracene,
benzo(a)pyrene,
chrysene,
dibenz(a,h)anthracene,
fluoranthene,
fluorene,
methyl naphthalene, 2-naphthalene,
phenanthrene, and
pyrene.

5 NA – not applicable. No CAS number exists for the substance.

6 PCBs, total in sediment includes the sum of Arochlor 1016, 1221, 1232, 1242, 1248, 1254, 1260, 1262 and 1268.

7 Polychlorinated dibenzo-p-dioxins (PCDDs) and polychlorinated dibenzofurans (PCDFs) expressed as 2,3,7,8-tetrachlorodibenzo-p-dioxin (2,3,7,8-TCDD) toxicity equivalent as specified in a director's protocol.

SCHEDULE 8

SOIL RELOCATION NOTIFICATION FORM

Is this soil relocation notification form an update to a previous soil relocation submission? *

- Yes
 No

Has the source site been used for any industrial or commercial uses described in [SCHEDULE 2](#) of the Contaminated Sites Regulation? *

- Yes
 No

If you answered NO to the question above, this form does not need to be submitted to the ministry. Soil deposition on receiving sites must adhere to other existing laws and bylaws.

If you answered YES to the question above, you must complete this form. All fields marked with an asterisk (*) are mandatory.

To be completed by a qualified professional on behalf of the person responsible for relocating soil.

Section A: Source Site Information

1. SOURCE SITE OWNER

First name *

Last name *

Company, if applicable

Mailing address *

City *

Province *

Country *

Postal code *

Phone number *

Email *

Are there additional owners?

Additional owners

First name *

Last name *

Company, if applicable

Address *

City *

Province *

Country *

Postal code *

Phone number *

Email *

Are there more than two owners? Include contact information as above.

First name, last name - address, city, province, postal code, contact phone and email

2. SOURCE SITE CONTACT

Same as above? *

- Yes
- No

Source site contact person (if not same as above)

First name *

Last name *

Company, if applicable

Mailing address *

City *

Province *

Country *

Postal code *

Phone number *

Email *

3. SOURCE SITE LOCATION

Site identification number (site ID), if available

Include all related numbers, separated by commas.

Coordinates for the centre of the site:

Latitude

Degrees *

Minutes *

Seconds *

Longitude

Degrees *

Minutes *

Seconds *

Land ownership *

- Legally titled, registered property
- Untitled Crown land
- Untitled municipal land

For legally titled, registered property

Site street address (if applicable) *

Or nearest street name/intersection if no address is assigned.

City *

Postal code *

Source site regional district *

PID numbers and associated legal description

PID *

Legal land description *

Attention: *

Attach land title record of source site.

For untitled Crown land

PIN numbers and associated legal description

PIN *

Legal land description*

And if available:

Crown land file numbers

For untitled municipal land

Legal land description*

4. SOURCE SITE USE

Identify all of the industrial or commercial uses described in [SCHEDULE 2](#) which have occurred or are occurring on this site. If no Schedule 2 uses apply, indicate 'none'.

Example Schedule 2 references and descriptions

E1. appliance, equipment, or engine maintenance, repair, reconditioning, cleaning or salvage

F10. solvent manufacturing, bulk storage, shipping and handling

Schedule 2 reference and description *

Specify all that apply.

Is the source site classified as high risk?*

- Yes
 No

If the site is classified as high risk, the minimum volume exemption does not apply and a soil relocation notification form must be submitted for all soil relocation from the high risk site.

5. SOURCE SITE PROJECT DETAILS

Identify the purpose of the soil excavation and relocation. *

Current type of soil storage (e.g. stockpiled, in situ) *

Section B: Soil Description and Relocation Information

1. SOIL QUALITY AND CHARACTERIZATION

Volume of soil to be moved - identify soil quality

Soil volume to be relocated in cubic metres (m³) *

Soil quality *

- Industrial land use (IL)
- Commercial land use (CL)
- Residential land use high density (RL_{HD})
- Residential land use low density (RL_{LD})
- Urban park land use (PL)
- Agricultural land use (AL)
- Wildlands natural land use (WL_N)
- Wildlands reverted land use (WL_R)

Note: Soil and vapour test results records must be maintained and provided to the ministry upon request.

2. SOIL CHARACTERIZATION METHOD

Describe soil characterization method: *

Attention: *

Attach soil analytical data

3. VAPOUR CHARACTERIZATION METHOD

Exemptions : Does the exemption from analyzing vapour apply?

Yes or No *

- Yes
- No

If the exemption applies, please describe. *

If no, describe the vapour characterization method. *

Attention: *

Attach vapour analytical data

4. SOIL RELOCATION INFORMATION

Soil relocation estimated start date (month - day - year) *

Month *

Day *

Year *

Estimated completion date (month - day - year) *

Month *

Day *

Year *

Relocation method (e.g. truck, barge, train) *

Section C: Receiving Site Information

Receiving Site

1. RECEIVING SITE OWNER

First name *

Last name *

Company, if applicable

Mailing address *

City *

Province *

Country *

Postal code *

Phone number *

Email *

Are there additional owners?

Additional owners

First name *

Last name *

Company, if applicable

Address *

City *

Province *

Country *

Postal code *

Phone number *

Email *

Are there more than two owners? Include their contact information as described above:

First name, last name - address, city, province, postal code, contact phone and email.

2. RECEIVING SITE CONTACT

Same as above? *

- Yes
 No

Receiving site contact person (if not same as above)

First name *

Last name *

Company, if applicable

Mailing Address *

City *

Province *

Country *

Postal code *

Phone number *

Email *

3. RECEIVING SITE LOCATION

Site identification number (site ID)

Include all related numbers separated by commas, if applicable

Coordinates for the centre of the site:

Latitude

Degrees *

Minutes *

Seconds *

Longitude

Degrees *

Minutes *

Seconds *

Receiving site regional district *

Attention: *

Attach site location map of appropriate scale showing the boundaries of the site and the location the soil will be deposited.

Land ownership *

- Legally titled, registered property
- Untitled Crown land
- Untitled municipal land

For legally titled, registered property

Site street address (if applicable)*

Or nearest street name/intersection if no address is assigned.

City *

Postal Code *

PID numbers and associated legal description

PID *

Legal land description*

Attention: *

Attach receiving site land title record.

For untitled Crown land

PIN numbers and associated legal description

PIN *

Legal land description*

And if available: Crown land file numbers

For untitled municipal land

Legal land description*

4. RECEIVING SITE PRIMARY LAND USE

Applicable primary land use, consider current and future use as per CSR Section 12. Please check below.

Receiving site land use *

- Industrial land use (IL)
- Commercial land use (CL)
- Residential land use high density (RL_{HD})
- Residential land use low density (RL_{LD})
- Urban park land use (PL)
- Agricultural land use (AL)
- Wildlands natural land use (WL_N)
- Wildlands reverted land use (WL_R)

Applicable site-specific factors for CSR Schedule 3.1 *

Relocated soil use at the receiving site (e.g. fill, cover, berms) *

Receiving site is a high volume site (more than 20,000 cubic metres deposited on the site in a lifetime).

Soil deposit is in the Agricultural Land Reserve (ALR).

Contact the Agricultural Land Commission (ALC) in regard to submitting a Notice of Intent or a Soil and Fill Use application for the soil deposit in the ALR. The ALC can be contacted at 236-468-3343 or ALC.Soil@gov.bc.ca for soil enquiries.

Soil deposit is on Reserve lands.

Inform Indigenous Services Canada via email to aadnc.bccontaminatedsites.aandc@canada.ca

Additional Receiving Sites

First additional receiving site information

FIRST ADDITIONAL RECEIVING SITE

1. RECEIVING SITE OWNER

First name *

Last name *

Company, if applicable

Minutes *

Seconds *

Longitude

Degrees *

Minutes *

Seconds *

First additional receiving site regional district *

Attention:*

Attach site location map of appropriate scale showing the boundaries of the site and the location the soil will be deposited on the first additional receiving site.

Land ownership *

- Legally titled, registered property
- Untitled Crown land
- Untitled municipal land

For legally titled, registered property

Site street address (if applicable) *

Or nearest street name/intersection if no address is assigned.

City *

Postal code *

PID numbers and associated legal description

PID *

Legal land description*

Attention: *

Attach land title record for the first additional receiving site.

For untitled Crown land

PIN numbers and associated legal description

PIN*

Legal land description*

And if available:

Crown land file numbers

For untitled municipal land

Legal land description*

4. FIRST ADDITIONAL RECEIVING SITE PRIMARY LAND USE

Applicable primary land use, consider current and future use as per CSR Section 12. Please check below.

Receiving site land use *

- Industrial land use (IL)
- Commercial land use (CL)
- Residential land use high density (RL_{HD})
- Residential land use low density (RL_{LD})
- Urban park land use (PL)
- Agricultural land use (AL)
- Wildlands natural land use (WL_N)
- Wildlands reverted land use (WL_R)

Applicable site-specific factors for CSR Schedule 3.1 *

Relocated soil use at the receiving site (e.g. fill, cover, berms) *

- Receiving site is a high volume site (more than 20,000 cubic metres deposited on the site in a lifetime).

- Soil deposit is in the Agricultural Land Reserve (ALR).

Contact the Agricultural Land Commission (ALC) in regard to submitting a Notice of Intent or a Soil and Fill Use application for the soil deposit in the ALR. The ALC can be contacted at 236-468-3343 or ALC.Soil@gov.bc.ca for soil enquiries.

- Soil deposit is on Reserve lands.

For untitled municipal land

Legal land description

SECTION 4 - RECEIVING SITE USE

Receiving site primary land use:

Select one of: *

- Industrial land use (IL)
- Commercial land use (CL)
- Residential land use high density (RL_{HD})
- Residential land use low density (RL_{LD})
- Urban park land use (PL)
- Agricultural land use (AL)
- Wildlands natural land use (WL_N)
- Wildlands reverted land use (WL_R)

High volume site confirmation:

- Receiving site is a high volume site (more than 20,000 cubic metres of commercial and/or industrial quality soil deposited on the site in a lifetime) *

Date site became high volume *

Describe how the relocated soil will be used at the receiving site (e.g. fill, cover) *

- Soil deposit is in the Agricultural Land Reserve (ALR).

Contact the Agricultural Land Commission (ALC) in regard to submitting a Notice of Intent or a Soil and Fill Use application for the soil deposit in the ALR. The ALC can be contacted at 236-468-3343 or ALC.Soil@gov.bc.ca for soil enquiries.

- Soil deposit is on Reserve Lands
